

Lighting is another simple change that can have a big impact on the room's ambience. If you're fortunate enough to have a large space to fill, consider installing a modernist chandelier. This opulent, unusual touch will give your bathroom a regal air, at minimal cost and effort. Alternatively, you may wish to install a dimmer switch to set mood lighting as and when you choose, or simply fill the counters with scented candles to make your next bubble bath even more indulgent.

Select your toiletries with care, displaying only the most aesthetically pleasing and hiding the rest away in cupboards or baskets when not in use. Ensure that there is plenty of storage for the whole household's needs; look out for antique boxes, mason jars or porcelain bowls to house essentials like cotton wool, soaps and toothbrushes.

Upgrade your linen closet, picking out thick, fluffy towels, robes and mats.

White cotton creates the impression of a home spa, or you could take inspiration from the east and pick out vibrantly colourful silk robes and an ornately embroidered rug. Monogrammed towels and flannels lend an air of vintage glamour, which you can capitalise on by adorning your bathroom counter with crystal bottles of eau de parfum.

To give your bathroom style as well as substance, replace your existing showerhead with a rain shower head. These deliver a wider, denser, finer spray, with advanced technology ensuring effective pressure throughout your shower. This inexpensive improvement can make a crucial difference to your daily life, and is certain to impress house guests.

If you're considering investing in a new property that comes complete with several luxurious bathrooms, contact us. Our diverse portfolio of international high-end real estate is meticulously curated and continually expanding, so we're certain to have the ideal new home for you.
